02/05/2016		BMW of North America, LLC	Manufacturer Safety recall issued - NHTSA #16V-071 - Recall #16V-071:221 - DRIVER'S FRONT AIR BAG - Status: Remedy Available - Need more information about this recall? Find an authorized BMW dealer , email CustomerRelations@bmwusa.com, or call 1-800-525-7417 - Learn more about this recall
<p>Description: During air bag deployment in an accident, the driver's front air bag module may produce excessive internal pressure that could cause the inflator to rupture.</p> <p>Inflator rupture could result in metal fragments striking the driver or other passengers, potentially resulting in serious injury or death.</p> <p>Remedy: Final remedy parts are available. Your BMW center will replace the driver's front air bag module for FREE. Please make an appointment with an authorized BMW center immediately. To ensure BMW of North America, LLC has your most recent contact information, please visit http://www.bmwusa.com/myBMW</p>

11/03/2016		New Jersey Motor Vehicle Dept. Clifton, NJ	Registration issued or renewed - Vehicle color noted as White
02/02/2017		BMW of North America, LLC	Manufacturer Safety recall issued - NHTSA #17V-067 - Recall #17V-067:241 - REAR DRIVESHAFT CONSTANT VELOCITY JOINT - Status: Remedy Available - Need more information about this recall? Find an authorized BMW dealer , email CustomerRelations@bmwusa.com, or call 1-800-525-7417 - Learn more about this recall
<p>Description: This recall involves the rear drive shaft constant velocity (CV) joint. The CV joint, which transfers drive torque between the transmission output shaft and the rear drive shaft, may have insufficient durability. The rivet connections of the CV joint may have insufficient fatigue strength. Over time, this could cause the CV joint to break.</p> <p>If the CV joint breaks, drive torque may no longer be transmitted to the rear wheels, resulting in a loss of propulsion, and increasing the risk of a crash. The driver will initially be alerted by noise from the area of the CV joint. Over time, this noise will increase along with vibration.</p> <p>Remedy: When you receive a letter informing you of this recall, please contact an authorized BMW center to schedule an appointment. The CV joint will be replaced.</p>

BMW of North America, LLC

Manufacturer Safety recall issued

- NHTSA #17V-676
- Recall #17V-676:268
- BLOWER MOTOR WIRING
- Status: Remedy Available
- Need more information about this recall? Find an authorized [BMW dealer](#), email CustomerRelations@bmwusa.com, or call 1-800-525-7417

- [Learn more about this recall](#)

Description: This recall involves the wiring for the system, known as the blower-motor, that controls air flow for the heating and air conditioning system. Over time, the connection between the wiring and this system could deteriorate and, in rare cases, could lead to overheating.

If overheating occurs, this could further lead to a short circuit or melting at the connection. In extremely rare cases, this could lead to a fire.

Remedy: The wiring will be inspected and a new part will be installed. Additional components will be replaced, if necessary, as determined at the time of repair.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 9/25/21 at 6:50:44 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Inspections

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rebuilt/Reconstructed Title

A Rebuilt/Reconstructed vehicle is a salvage vehicle that has been repaired and restored to operation. These vehicles are often severely damaged before they are rebuilt and refurbished parts are typically used during reconstruction. In most states, an inspection of the vehicle is required before the vehicle is allowed to return to the road.

Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds approximately 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Total Loss Vehicle

An insurance or fleet company declares a vehicle a total loss when a claim exceeds approximately 75% of its pre-damage value or if the vehicle is stolen and not recovered. This damage threshold varies by company. These companies typically take possession and obtain the title. Not all total loss vehicles result in a DMV-reported branded title. This may occur when an insurance company's definition of a total loss is different than the state DMV's definition for a branded title or when the owner of the vehicle is a self-insured company, like a fleet or rental company.
